Avaya Scopia® XT Telepresence Platform
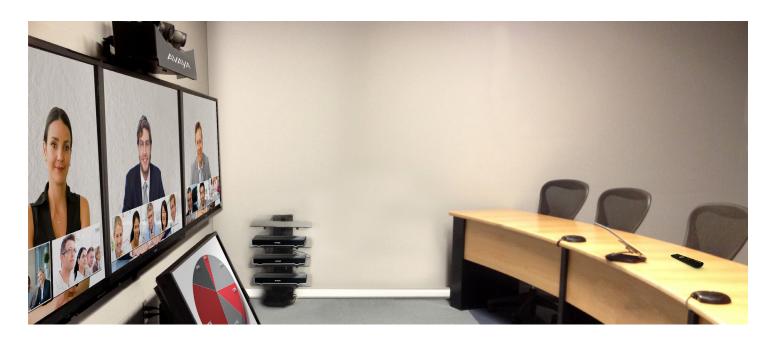

Customized Immersive Telepresence

The Avaya Scopia® XT Telepresence Platform creates a lifelike, immersive experience replicating the feeling of meeting in-person. The Scopia XT Telepresence Platform is customizable to the unique requirements of individual rooms and customer needs. Installed and configured by the worldwide network of Avaya channel partners, the XT Telepresence Platform provides a cost-effective and highly flexible approach, enabling partners to meet the unique needs of each customer deployment.

Customers can work with their Avaya partner to define the installation and furnishings that best fit within their conference room and budgets to deliver a distinct customized telepresence experience with the Scopia XT Telepresence Platform.

With more than 100 years as a leader in communications, Avaya can help your company maximize productivity with the communications solutions specific to the needs of your workforce.

Immersive Lifelike Experience

Replicate the feeling of meeting in person. The Scopia XT Telepresence Platform incorporates state-of-the-art technology with support for full HD 1080p video, 48 kHz full band audio and up to 1080p60 PC data sharing for an immersive lifelike experience.

Customizable and Flexible

The Scopia XT Telepresence Platform delivers an immersive telepresence experience tailored to the unique requirements of individual rooms and customer needs. Installed and configured by our worldwide network of expert partners, the Telepresence Platform provides a cost-effective and flexible deployment approach with optimal quality in a variety of conditions maintained through powerful calibration and setup tools.

Superior Interoperability

The Scopia XT Telepresence Platform combined with the Scopia Elite MCU delivers superior interoperability with telepresence systems from Cisco/

Tandberg, Lifesize and Polycom as well as with any standards-based video conferencing system for full video, audio and H.239 data collaboration.

Intuitive Apple iPad Control

The learning curve for using the Scopia XT Telepresence Platform is virtually eliminated with the Scopia Control multi-touch application for the Apple iPad device. First time users can initiate calls, control their Scopia XT Telepresence systems and moderate meetings with little training or introduction.

Breakthrough Pricing

The Scopia XT Telepresence Platform enables the creation of an exceptional immersive experience at a breakthrough price point. The Telepresence Platform stands out from the competition by delivering immersive video collaboration capabilities at a price far below most similar solutions.
